

## Match Report Vs Moonee Valley

Overall a great effort by all. Regardless of the end score results we are making inroads.

We come up against a much older and bigger experienced side.

On a great sunny day for football

Paige Betros had the ball on a string throughout the whole game she was in everything. Only just got to learn to run her 10 metres before bouncing. Sarah Montrose moved to rover and had a breakout game with an equalling game high 10 tackles and kept racking up possessions at will. Sam White battled tirelessly all day running up against 3 ruckman and still winning taps. The captain Shae Montrose started off slowly but worked her way back into the game after half time winning more of the ball and finishing with 10 tackles and great kicking out to targets. Little Amy although small was putting her body on the line and winning the ball. Emily Zühlke had a career high 6 tackles and was making a great contest in the forward line bringing the ball to ground. Jorja Potter put a couple of good bumps on deep forward helping us hold the ball in our forward line. Nara went down back and laid some crunching tackles that stopped the opposition in their tracks, looks like she has found her position

In summary: a great game by all that took part, I think our training drills are bringing more players into the game as they learn more about the game. Regardless of the score I'm sure our opposition went away thinking we won the game easy but gee those girls hurt us.

Till next game girls and we improve again

Cheers

Anthony
