

## Presidents report 24/5/19

Good Day everyone. I hope your week is going well. Just a quick update on our progress.

The seniors have been playing well to date, we are in the top 4 and after a good 8 goal win on the weekend, it has secured us as a top 4 contender. David Connell and his troops again have represented the club well.

The under 19s continue to be a great story. After winning the wooden spoon last year, we are sitting second on the table this year with 5 wins and 1 loss. We are 3 games clear in the top 4 and looking like having a real shot at the title. Such an exciting opportunity for these kids.

The seniors and under 19s and women's seniors are all rotating player to help our Auskick program with Marree Anthony at the helm. The kids love seeing the players working the drills on a Friday Night and it has bought some solid professionalism to this program. Marree has done a sensational job thus far.

Our juniors are going ok. It is tough finding volunteers to help, but the people that are working make it all happen week in week out. Under 9s are playing well and the kids are learning heaps from their coaches, it is such a pleasure watching them grow into little mini footballers.

The Under 11s are playing in a division above their capabilities, but I must admit, the positiveness from them, and the chance to make them grow more into A grade footballers is great. We will keep supporting their cause and always be there for them.

The Women Senior team is also a remarkable story. They are winning games, and the games they have lost have been nail biters. They are currently 5<sup>th</sup> with a major chance of finals footy. The impact they have made on the club is outstanding, they have change the dynamics of Tullamarine for the better. I have been so impressed with them all and I am so proud to have them part of our club now, and I can see us only building this stronger again.

The Women's Under 18s are also a similar Story, these girls have done it tough, trying to find players and win games, but they have, and as above, they also are helping out around our club and making it a better place for all.

Under 15 girls are winning, 6 goals down at 3 quarter time last week, they came from behind to win. And outstanding game and story. Exciting times ahead.

We have our 2<sup>nd</sup> function on Saturday night at 7pm and our clubrooms, and your all welcome. We also have our home game this week, so I would love to see you all there, starting with our 19s at 10am.

As a club we are going well on field, but we still need support off field. With the influx of teams, we still find it hard to get enough volunteers, which makes it hard on the current group. It also means we need to find more sponsors to keep the club moving forward, as the cost to run all these new teams makes it hard.

We need your support, without you guys, our club struggles. I can't thank you all enough for what you have done for us and hope you can continue to support us.

**Kind Regards**
